D. Exam Tips & Quick Gotchas

- * { **margin:0**; **box-sizing:border-box**; } — reset first to kill surprise spacing.
- Navbar/rows → **display:flex**; galleries/cards → **display:grid**.
- Vertical center: **align-items:center**; **justify-content:center** on a flex parent.
- Dropdown: **dropdown:hover .menu{display:block}** — **.menu** must be **position:absolute**.
- Tabs no-JS: hide radios **appearance:none**; reveal with **:checked ~ .panel**.
- Input states: **:focus:valid** green / **:focus:invalid** red border (pure CSS validation).
- Tables: **border-collapse:collapse** + **tr:nth-child(even)** for zebra rows.
- No `<img>` allowed — use colored **<div>**s & gradients for all visuals.
- Memorize hexes (red arrows point here): **#1d78f0** blue, **#22c55e** green, **#ef4444** red, **#f97316** orange, **#781fa0** purple, **#0f172a** ink.
- Keep **index.html** + **style.css** separate; link with **<link rel="stylesheet" href="style.css">**.
